

20L Container return guidelines

To keep our Closed Loop drop-off service free for our customers and make sure we can make use of every single container returned to us, please follow the below guidelines!

Good Condition

No marker pen or damage please – marker pen is difficult to remove from our containers during the cleaning process.

No holes!

We cannot accept back pierced bottles.

Leave the label on

This helps us identify which product has been previously into that container and helps us direct the washed drums.

No rinsing required

You can leave this to our dedicated cleaning team!

Capped please!

Ensure the empty containers are capped, this prevents any contamination during storage or transit.
